### The city sightseeing and Day Trips

### What did the Alumni say?

“Before coming to China, I really only had basic knowledge of China, I had no idea about the legal system, how the Party State system works and really only knew of the Great Wall of China. I can now say that I will be leaving Beijing with so much more knowledge on all topics covered by the lecturers. Nothing I was taught in class was knowledge I already knew, so I can safely say that everything the lecturers

taught us was new to me and I loved being able to learn so much. I have so much more of an appreciation of the Chinese Culture, and the trip has inspired me to learn the language. "--- Stew Whitehead (4th Year, LLB)

"Overall I really enjoyed this experience and would definitely recommend it, you were all really amazing at making us feel welcome and being very helpful."--- Kelsie Bertacco (4th Year, LLB/BA-Sociology)

"Personally the people and the culture has made a significant impact, getting to talk with the people from the Tuan Jie Hu Community and to hear their stories has had a real impact on me and was a great experience that has challenged me in many aspects."--- Petra Baker (4th Year, LLB)
